PROFILE

High ranking student, passionate about engineering. Great love for science and technology such as physics and robotics. Focused on developing knowledge within science, technology, engineering and math (STEM) throughout future education.

EDUCATION

The City College of New York & Macaulay Honors College, Freshman Aug 2021-Present
Majoring in Mechanical Engineering, where coursework include Computer Aided Design, Writing for Engineering, Calculus, Chemistry and Arts in New York City.

Curtis High School, Graduate with IB Diploma 101.52% Grade Average 2017-2021

- Focus on science and engineering coursework including IB physics, IB biology, AP calculus
- Varsity Cross Country and Track and Field all four years
- Lab assistant and science department monitor

EXPERIENCE

Make With Data Club Curtis High School 2019 - 2021

Excels at critical thinking through problems and challenges that are faced when analyzing data. Works with Columbia University Professors. Accepted into FabLearn 2020 at Columbia University where different ideas and concepts are expressed through different perspectives.

Adobe Blues Restaurant Summer 2021 - Present

Bus position at local restaurant, working 15+ hours a week demonstrating fast learning and good communication skills.

SKILLS

- Strong critical thinker: cultivated through solution oriented development in science research coursework and proactive exposure to challenging courses
- Fast learner: grasps different disciplines easily as shown by excelling at physics and music; eagerness to work hard to learn skills that grow my passions in STEM
- Coder: learned Python programming language during lego robotics design course in NYC STEM summer program and Columbia SHAPE
- Fluent in multiple data analysis softwares including Arcgis, Arcgis Online and Excel.

AWARDS

- President's Award for Outstanding Academic Excellence
- New York City Comptroller Achievement Award
- Michael J. Petrides award for math and science
- Science Department Service Award
- Arista Honors Society
